

Compliance Document Sample Pack — School Uniforms

Education School Uniform Solutions — LantaoWork.com

About This Sample Pack

This document pack represents the compliance documentation delivered with every LantaoWork school uniform shipment. Each production batch receives its own independent verification — not a recycled annual certificate. The following pages show sample formats. Actual batch-specific documents are issued per production run.

1. CPSIA Children's Product Certificate (CPC) — Sample Format

FIELD	SAMPLE CONTENT
Product Identification	School Uniform Polo Shirt — Style SU-PL-001, CVC 65/35, 180 GSM
CPSC-Accepted Testing Laboratory	[Accredited Lab Name & CPSC Registration Number]
Test Report Number	LAB-2026-XXXXX
Applicable Regulations	16 CFR Part 1610 (Flammability) — Class 1 16 CFR Part 1303 (Lead in Paint) — Compliant CPSIA Section 101 (Lead in Substrate) — ≤ 90 ppm CPSIA Section 108 (Phthalates) — $6P \leq 0.1\%$ each ASTM F1816-18 (Drawstring Safety) — Compliant
Manufacturer	LantaoWork, [Factory Address], China
Importer / Domestic Manufacturer	[To be completed by US importer of record]
Date & Place of Issuance	[Batch production date], [City, Country]

2. Heavy Metal & Chemical Test Report — Sample Format

TEST PARAMETER	METHOD	LIMIT	RESULT
Total Lead (Pb)	CPSC-CH-E1002	≤ 90 ppm	ND (< 5 ppm)
Total Cadmium (Cd)	CPSC-CH-E1004	≤ 75 ppm	ND (< 1 ppm)
Phthalates (6P)	CPSC-CH-C1001	$\leq 0.1\%$ each	ND (< 0.01%)
Formaldehyde	JIS L 1041 / ISO 14184-1	≤ 20 mg/kg (Class I)	< 16 mg/kg
AZO Dyes (Banned Amines)	EN 14362-1	≤ 30 mg/kg	ND
Organotin Compounds	ISO 17353	Differ by compound	ND

3. OEKO-TEX Standard 100 Certificate — Overview

Class I PRODUCT CLASS	≤ 20 ppm FORMALDEHYDE	100+ TESTED SUBSTANCES	Annual RENEWAL CYCLE
---------------------------------	---------------------------------	----------------------------------	--------------------------------

OEKO-TEX Class I certifies that every component — fabric, thread, buttons, interlining, labels — meets the strictest human-ecological safety standards for baby articles (ages 0-3). This is the highest safety class and exceeds requirements for school-age clothing. Certificate number and validity period are batch-specific and included with each shipment.

4. Market-Specific Compliance Matrix

REQUIREMENT	US (CPSIA)	CANADA (CCPSA)	UK (REACH)	AUSTRALIA (AS/NZS)
Lead	≤ 90 ppm	≤ 90 mg/kg	SVHC Candidate List	AS/NZS ISO 8124-3
Phthalates	6P ≤ 0.1%	6P ≤ 1000 mg/kg	REACH Annex XVII	Consumer Goods Order
Flammability	16 CFR 1610	CCPSA Children's Sleepwear	BS EN 14878	AS/NZS 1249
Drawstrings	ASTM F1816	CCPSA Cord Regulations	BS EN 14682	AS/NZS 1249
Formaldehyde	Voluntary (OEKO-TEX)	Voluntary (OEKO-TEX)	REACH Annex XVII	Voluntary (OEKO-TEX)
Labeling	RN + Tracking Label	CA Number + Bilingual EN/FR	UKCA / CE Mark	AS/NZS 1957

Note: These are sample formats. Actual batch-specific certificates and test reports are issued by CPSC-accredited laboratories and accompany each production shipment. Contact LantaoWork for a current sample with your school's specification.
